Auto-Lock, Cord-N-Reel or Pivot Awnings

Protect your home and cut down your cooling expenses with awnings made to suit the harsh Australian sun.

Fabric awnings, such as with the Auto-Lock, Cord-N-Reel or the Pivot (Drop Arm) Awning, reduce the total heat load on and in your house, minimizing the need for supplementary cooling. Your valuable carpets, curtains and furniture will be protected from direct or reflected sun damage. The close-fitting design of

this versatile and attractive awning makes it an excellent choice for ground floor windows, offering the benefits of optimum privacy and sun protection.

Both options offer easy function, with shade adjustment, and when the sun goes down, the awning can be rolled away neatly into a head box.

Technical

- Blind Control Options include:
 - » Pivot Arm
 - This affordable Drop Arm awning comes standard with crank operation, 5-sided tube and spring-loaded pivot arms to tension the fabric. Spring loaded arms, internal cord-lock, crank, winch [a](#) or motorisation with sun and/or wind sensors is an option for the discerning customer
