

Venetian-Modern

50mm & 63mm Venetian Blind

The Venetian-Modern range has been specially designed with the harsh Australian climate in mind and is suitable for both residential and commercial applications. It is aesthetically stylish and can be manufactured in both 50mm and a limited range of 63mm blades in a modern range of colours from classic Whites through to the on-trend Greys and neutrals.

The Venetian-Modern range is also a popular choice in high humidity environments, such as kitchens, bathrooms and heavy traffic areas, where a tougher finish is required. Our low maintenance slats are washable and fade resistant, without the issues that can be encountered with natural wood.
