

AmbiAu

Polymer Shutters-internal

An Australian made shutter offering you elegance and style from a locally made shutter company. Using the latest in technology, the AmbiAu shutter is made with a unique Polymer Foam using non-toxic recycled materials.

They are guaranteed not to crack, warp, shrink or discolour. Water resistant and easy to care for, the AmbiAu insulates up to three times greater than a timber shutter. This means that you are warmer in winter and cooler in summer.
